## Working from anywhere...

With a 12.5-inch HD screen and a slim lightweight casing, GeoBook 2e is designed to move. Whether it is from home, the office or your local coffee shop, the 2e is ready to go. A compact footprint, precision touchpad and edge-to-edge keyboard make light work of small workspaces, allowing users to work comfortably at all times.

## Performance that powers productivity and keeps you connected...

✔ With Intel Quad or Dual Core processor, 4GB of RAM memory and 64GB of fast eMMC storage built-in, high performance is assured, complemented by productivity boosting Windows 10 Pro.

✔ A built-in front-facing 2MP webcam, dual microphone and 2 integrated speakers ensure you have the tools you need to communicate with friends, family or co-workers easily and efficiently.

✔ 802.11ac Wi-Fi brings reliable wireless connectivity less prone to interference from other devices and keeps you connected when it matters most.

✔ GeoBook 2E is ready to connect, with a versatile and reversible USB-C port providing power and data connectivity, with the facility to add multi-port expansion hubs. This is supported by two USB 3.0 ports, offering fast data transfer. A Mini-HDMI port is included for connecting an external screen to improve your multitasking capability.

✔ A 3.5mm port is included for connecting headphones and headsets, which can also be connected wirelessly via Bluetooth.
