STAINLESS STEEL
WHISTLING KETTLE

Functionality and beautiful design are our priorities. Add a touch of elegance to your kitchen and brew up a better cup of tea with this stainless steel surgical whistling tea kettle.

The Willow & Everett stainless steel tea kettle is a high-quality addition to your kitchen and tea or coffee making routine. A spill-proof top with silicone knob allows you to easily fill the kettle with water and a pleasant whistle lets you know when your water has boiled. A spring-loaded lever opens the kettle spout and the ergonomic silicone handle provides a non-slip grip as well as comfort.
